

OnGARD™ Security Door Brace Lifetime Limited Mechanical Warranty

Subject to the terms and conditions of this warranty, Global Security Experts Inc. extends a lifetime limited mechanical residential users (“Original Users”) of our GSE brand product (“Product”) against defects in material and workmanship of OnGARD™ security door Brace, as long as the original user occupies the residential premises upon which the product was originally installed.

What GSE will do: Upon return of the defective Product to GSE, and GSE’s sole discretion, will either repair or replace the Product.

Original User: This warranty only applies to the Original User of Products. This warranty is not transferable.

What is not covered: The following costs, expenses and damages are not covered by the provisions of this limited Warranty: (i) labor costs including, but not limited to, such costs as the removal and reinstallation of Product; (in) shipping and freight expenses required to return Product to GSE; and (iii) any other incidental, consequential, indirect, special and/or punitive damages, whether based on contract, warranty, tort (including, but not limited to, strict liability or negligence), patent infringement, or otherwise, even if advised of the possibility of such damages. Some local laws do not allow the exclusion or limitation of incidental or consequential damages, so the above exclusion or limitation may not apply to you.

The provisions of this warranty do not apply to Products: (i) used in commercial applications; (ii) used in common area applications; (iii) used for purposes for which they are not designed or intended; (iv) which have been subjected to alteration, abuse, misuse, negligence or accident; (v) which have been improperly stored, installed, maintained or operated; (vi) which have been used in violation of written and/or video instructions provided by GSE; (vii) which have been subjected to improper temperature, humidity or other environmental conditions; or (viii) which, based on GSE’s examination, do not disclose to GSE’s satisfaction non-conformance to the warranty.

Additionally, this warranty DOES NOT COVER scratches, abrasions, or deterioration due to everyday wear and/or use of paints, solvents or other chemicals.

Additional terms: GSE does not authorize any person to create for it any obligation or liability in connection with the Product. GSE’s maximum liability here under is limited to the original purchase price of the Product. No action arising out of any claimed breach of this warranty by GSE may be brought by the Original User more than one 120 days after the cause of action has arisen.

How local law applies: This warranty gives you specific legal rights, and you may also have other rights as otherwise permitted by law. If this Product is considered a consumer product, please be advised that some local laws do not allow limitations on incidental or consequential damages or how long an implied warranty lasts, so that the above limitations may not fully apply. Refer to your local laws for your specific rights under this warranty.

Installation: GSE products are designed to fit standard residential door preparations. During the initial installation, if there is a problem with the Product’s performance or, the Original User may simply contact GSE Customer Service at 888-306-7998 in the U.S. for technical assistance.

Disclaimer: The OnGARD security door brace is offered as a means of slowing down an intruder only. We make no claims or guarantees that an intruder can’t or won’t breach your residential door.

Care Guidelines:

Finish Care and Cleaning of security door brace. A mild soap may be lightly used if very dirty. Particular care should be taken to avoid thinners and strong cleaning solvents as they can damage the finish. Initial care for finishes requires only periodic cleaning with mild non-abrasive soap and extremely light buffing with a soft cloth.

Periodically clean-out holes on bottom floor plate by vacuuming and wiping out with mild soap and lint free cloth. Apply small amount of household lubricant or oil in the holes using a cotton swab. Too much oil may leave residue and will attract dust and dirt.
